SUCCESS

comes to the man who is willing to work; who buckles down to the task at hand until something better comes along. It comes to the man who does not shy at a pair of bib overalls; who doesn't have a fit if his hands are not soft and white. It comes to the fellow who has grit enough to do even a little more than he is paid for doing. That's the kind of fellows who go higher. These traits combined with the saving habit in some good bank will surely open the door of success.
